

Baby Scale

Model ASMD-BW is ergonomically designed for the newborn and growing baby. The scales feature advanced technology for precision weighing which is important for keeping track of the baby's growth. Weighing capacity 20 kg, division 5 g.

The advanced technology is so precise that our scales are integrated into warmers and incubators used to sustain premature babies. Unique movement compensation technology provides 100% accuracy, even when baby moves during weighing.

model ASMD-BW

Properties

- weighing capacity 20 kg
- division 5 g
- simple operation
- tare function
- RS232 port for connection to PC or printer
- measuring strip in cm on the back edge of the pan
- low battery indication
- scale's weight 7 kg
- overall dimensions 610 x 450 x 160 mm
- power: internal rechargeable battery and charger 230V / 9V=
- version: CE-verified, class III
- certified in accordance with Annex V of **Directive 93/42 / EEC**

type	ASMD-BW
capacity	20 kg
division	5 g
shell dim.	610 x 450 mm
